

# COMMAND DEMOGRAPHICS

Compiled by Master Sgt. Melvin B. Buckman, AFMC Personnel

Base listings are followed in bold type by its primary AFMC organization, the host unit. Other AFMC organizations with headquarters elsewhere, but which have people assigned to the base, are listed following the host unit.

Figures in the tables are for assigned personnel, a term for the actual number of people on the job. This is not the same as manpower authorizations, a term for the total number of positions with approved funding.

Figures are current as of Dec. 31, 1999.
